

Start date: 30/08/2022

Overview

Supply and installation of a new CNC machine at CV7 9NH

Background

Harris RCS are a precision engineering company situated in Coventry, who have over 20 years' experience in the aerospace industry.

Due to steady growth, the company is looking to embark on an investment project at their existing premises. This project will involve the supply and installation of a new CNC machine. This machine should be a compact multitasking machine with opposed twin-spindles and twin turrets.

Furthermore, this machine should also include a bar feed to allow for up to 65mm diameter bar, Filtermist extraction and quick change over collet chucking system.

We expect to commence this project as soon as possible with completion by October 2022 at the latest.

We will assess each bid for the tender in the following way:

- Price (40%)
- Timescales (40%)
- Experience/track record (20%)

If you are interested in tendering for this opportunity or would like to know more, please contact the team on info@harrisrscs.com or give us a call on 02476364848

This tender will be advertised for the next 14 days, and the closing date is 15/09/22 at 11:59pm

This project is subject to grant approval which will be part funded by the European Regional Development Fund
